OUR JOURNEY

Established in 1985 at BSCIC Industrial Estate, Jashore, Bangladesh, we are a 100% export-oriented shrimp and fish processing plant. Our plant was BRC and HACCP certified in the same year. We have about 3 Lakh hectares of land, mostly cultured extensively and environmentally friendly. Our shrimps are cultivated naturally, without antibiotics, growth hormones, or chemicals. We export to 19 countries and have a state-of-the-art laboratory and technology that meets international food safety regulations, including HACCP and BRC.

Our mission is to be focused on customer satisfaction, maximize the profitability of the entire production operation, high-quality products with user-friendly packing & make life hygienic & healthy.

Our vision is to deliver the best quality products & maintain their freshness until it reaches you.

Our value is to provide the strongest possible link between customers & suppliers with our honesty & integrity through our sophisticated processing technology & with a team of professionals.

PACKAGING

**Our private labeling services can
be tailored to meet your needs,
In addition to serving you
under our brand.**

OUR STRENGTH

Our customers and their needs are our first priority. We commit to being the best service provider and we stand by it. From maintaining and ensuring the best quality product, we highly prioritize proper communication with each of our customers.

Quality Focus

Our consistent focus on maintaining high quality has made us a trusted supplier for our customers.

Customer Commitment

We are committed to meeting customer expectations and deadlines, allowing them to focus on their sales plan while we work to make their business easy and successful.

Experienced Team

Our experienced team is our strength. Most of our team members are working here in their respective fields for more than a decade.

Equally Care

We care for our customers equally whether they buy a single container a year or 50 containers. Our service does not get compromised by the order.

ADDED SERVICE

(Data logger, Communication System, Program Business)

Data logger

Our containers are equipped with data logger technology, allowing us and our customers to track their exact location and monitor the inside temperature with clear and accurate information.

Communication System

Our dedicated communication team provides 24/7 updates and live information to our customers regarding their product's production techniques, process, and progress. Additionally, a weekly report on overall production and shipment is also provided

Program Business

Our customers have the flexibility to schedule their orders into separate sections according to their preferred timeline.

OPTIMUM QUANTITY AGAINST 20/40 FEET CONTAINER

20 feet container
can hold 900–1000 boxes

40 feet container
can hold 1850–2000 boxes
